PACO...Environmentally-Friendly Innovation

15 September 2017

We, The Pathumthani Concrete Co., Ltd.(PACO), Thailand's premier concrete pile and precast concrete manufacturer and installer, are proud to announce the opening of our third factory, strategically located in Rayong to keep pace with the industrial growth on the Eastern Seaboard and EEC projects. Whether your plans include factory expansion or new factory construction, PACO's innovative concrete piling products and installation methods are now closer than ever. Our Rayong factory can now offer faster pile production closer to your premises, still coupled with our highly-innovative environmentally friendly installation solutions, meticulously developed over four decades.

We have a long history of piling innovation while providing the best foundations for a wide range of construction projects, diverse in scale and type, throughout Thailand. These include many projects right here on the Eastern Seaboard, namely the Shell Oil Refinery, Esso Oil Refinery, Thai Oil Refinery, IRPC (TPI) Refinery, Indorama Petrochemical, SCG Dow Chemicals, Ford Assembly Plant, BHP Bluescope New Plant, Shin Et Su Chemicals, Map Ta Phut Hospital and Ta Tung Chemicals. Moreover, we are also exporting our piles and engineering products through Laem Chabang Deep Seaport and Bangkok Port to ASEAN countries such as Laos, Myanmar and Singapore.

PACO has been recognized as a leading and respected manufacturer and installer since 1978. From our quality prestressed square and I-shaped concrete piles to innovative, high quality spun piles and from traditional driving techniques to the newest environmentally-friendly installation technologies which limit noise and vibrations, PACO leads the piling innovation by being the patented pioneer operator.

In addition to our quality precast concrete foundation products, PACO now also offers innovative precast building products such as beams, girders, wall panels and columns designed for both factory and office building construction, all custom-made to order at any scale of work.

For nearly forty years in business, PACO enjoys long-lasting relationships with owners, many architectural and engineering consultants, designers and contractors whose projects help to build the industrial zone along the Eastern Seaboard...with PACO piles plotting the map of the region.

PACO has succeeded over the last four decades by providing strong foundations to all of our customers, and we would like to be a part of your success too. Please consider us, your new neighbor on the Eastern Seaboard, for your next expansion or new construction project. No job is too small or too big for us. Our contact persons are:

1. Mr. Songkierti Khunkitti, Managing Director - Tel 081 8230815 / sk@paco-group.com
2. Ms. Vivalya Khunkitti, Business Development Manager & Call-Center Manager - Tel 081 8555825 / vvk@paco-group.com
